

120MW energy storage project

50KW modular power converter

Flexible Configuration

- Modular Design, Expanding as Required
- Small&Light, Wall Mounted
- Installed in Parallel for Expansion

Powerful Function

- Support PV+ESS
- Grid Support, Equipped with SVG Technology
- On-Grid and Off-Grid Operation

Reliable Protection

- Outdoor IP65 Design
- Sufficient Protection Functions Equipped

Overview

Will Envision Energy deliver a 120 mw/240 MWh battery energy storage project?

Chinese green technology provider Envision Energy said today it will deliver a 120-MW/ 240-MWh battery energy storage project in France for renewable energy producer Kallista Energy. Envision Energy's EN 5 Pro 5 MWh Storage System. Image: Envision Energy ().

What makes envision a good energy storage company?

Built with a strong emphasis on proven design, safety, and long-term reliability, Envision's energy storage products are engineered for secure and dependable performance across their lifecycle, supporting the transition to a flexible, resilient, and net-zero energy future.

What is Envision Energy's first independent battery energy storage contract in France?

After previous triumphs in Europe, this project represents Envision Energy's first independent battery energy storage contract in France. Envision Energy will provide a minimum of a 14-year long-term maintenance (LTSA) agreement, starting construction in June 2025, ensuring ongoing presence in the area once the construction phase is complete.

How many AC units will Envision Energy Supply?

Envision Energy will supply 44 DC units and 22 AC units for the facility, which will provide frequency regulation services on the French transmission system operator RTE's reserve markets. The contract also includes a long-term maintenance agreement.
