

12v 240ah lithium iron phosphate battery pack

Overview

What is a 12V 100Ah lithium iron phosphate battery used for?

This 12V 100Ah Lithium Iron Phosphate battery can also be used to replace standard lead-acid batteries in the use of mobility scooters, UPS system, fire alarm systems, access control systems and medical devices. They are growing in popularity for military and aerospace applications. The Canbat CLI100-12 is a UL certified 12V 100Ah LiFePO₄ battery.

Are lithium iron phosphate batteries good for 12V?

While Lithium NMC and Lithium Polymer batteries will provide high current right up to the end of their cycle, their cell voltage is the first thing that makes them a bad choice for 12V use. A configuration of Lithium Iron Phosphate for 12V gives you 12.8V which is perfect.

What is Xantrex 12V 240ah lithium ion iron phosphate (LiFePo) battery?

The Xantrex 12V 240ah Lithium Ion Iron Phosphate (LiFePO) Battery offers exceptional power density and is also available with a heating blanket option if installation is outside the main cabin. With the Bluetooth connection enabled gathering real time data from the battery is incredibly simple and always accurate.
