

180W 18V solar panel

Overview

What is a 180 watt solar panel?

This 180 Watt Solar Panel includes Monocrystalline solar cells (A-class). The solar panel is very powerful and is very suitable for charging batteries and solar generators on the boat, gazebos or camping. It is weatherproof and waterproof and can therefore be permanently mounted. The 180 W solar panel has a universal MC4 output.

Is the 180 watt solar panel waterproof?

It is weatherproof and waterproof and can therefore be permanently mounted. The 180 W solar panel has a universal MC4 output. Via this output, the solar panel can daily generate an average of 850 Wh of energy. You can store this energy in a solar generator or 12V lead-acid batteries (in combination with a charge controller).

What is an 18W solar home lighting system?

An 18W Solar Home Lighting System is the smallest capacity solar lighting system for a home to use sunlight for running the CFLs. The system comes with a wide range of specifications at affordable prices. It is a compact and easy-to-install system that can provide a battery backup of up to 6 hours.
