

# **185kw photovoltaic inverter**

## Overview

---

What is a 125-255kW PV string inverter?

125-255kW three-phase utility-scale 1500 Vdc PV string inverters have 9 MPPT (125K) or 12 independent MPPTs (185 & 255K) with high-rated dc inputs that support "Y" type connection in DC side, up to 30A per DC input . Maximum string input current 15A, support bifacial modules access. Supports anti-PID function to improve system efficiency.

How many MPPTs does a PV string inverter have?

185-255kW three-phase utility-scale 1500 Vdc PV string inverters have 9 MPPT (125K) or 12 independent MPPTs (185 & 255K) with high-rated dc inputs that support "Y" type connection in DC side, up to 30A per DC input . Maximum string input current 15A, support bifacial modules access.

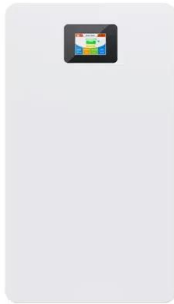

Why should you choose a Solis inverter?

**Intelligent Design:** With multiple MPPTs, these inverters can maximize the performance of complex or shaded PV arrays, ensuring efficient energy production. **Reliability:** Solis inverters are known for their durability and reliability, providing peace of mind and reduced maintenance costs over the life of the system.

## 185kw photovoltaic inverter

---

### Growatt Solar Inverter on Grid Solar System Power Inverter 185KW ...

Growatt Solar Inverter offers 185KW, 216KW, 250KW, and 253KW power for on-grid solar systems. Efficient, reliable, and versatile for utility-scale PV., Alibaba
