

325 Photovoltaic panel size

Overview

Panasonic's unique hetero-junction technology uses ultra-thin amorphous silicon layers. These thin dual layers reduce losses, resulting in higher energy output than conventional panels.

Panasonic HIT Black is the brand new all-black module which features high efficiency 19.1%, industry leading temperature coefficient of $-0.258\% / ^\circ\text{C}$ and a sleek.

Quality and Reliability - Panasonic's vertical integration, 20 years of experience manufacturing HIT and 20 internal tests beyond those mandated by.

This poly-crystalline panel, measuring 77.17" x 39.02" x 1.57" and weighing 49.60 lbs, features a sleek silver 40mm frame and a white back sheet, with 72 cells and a 5 bus bar design. It delivers a peak power of 325 watts, with a maximum power voltage of 37.39 V and a current of 8.69 A.
