

# 32650 Battery Inverter

## Overview

---

What is a 32650 LiFePO4 battery?

Part 1. What is 32650 LiFePO4 battery?

The 32650 LiFePO4 battery is a lithium iron phosphate battery that measures 32mm in diameter and 65mm in length, hence the name “32650.” This type of battery is known for its superior safety, long cycle life, and stable performance compared to other lithium-ion batteries.

How many Mah in a 32650 battery pack?

For this project let the requirement is: 12.8 V and 42Ah Battery Pack  
Specification of 32650 Cells Used: 3.2V and 6000 mAh The desired capacity of the battery pack = 42AH or 42000 mAh. The capacity of each cell = 6000 mAh  
No of cells required for parallel connection =  $42000 / 6000 = 7$  nos.

What is the nominal voltage of a 32650 LiFePO4 cell?

The nominal voltage of a 32650 LiFePO4 cell is 3.2V. This stable voltage provides a reliable power output, which is crucial for applications that demand consistent performance. Additionally, the voltage remains relatively steady throughout the discharge cycle, contributing to the battery’s reliability and efficiency.

## 32650 Battery Inverter

Such DC power can then be stored in a battery or converted by a solar inverter into Alternating Current (AC) power which can be used to run home appliances and other Alternating Current (AC) devices.
