

33v lithium battery pack

Overview

What is a ve 33v 18650 battery?

The EVE 33V 18650 Battery is a high-capacity lithium-ion rechargeable power cell designed for long-lasting and reliable performance. With an impressive 3300mAh capacity and a continuous discharge rate of 10A, this battery is an excellent choice for moderate to high-drain devices that require steady and efficient power output over extended periods.

Are lithium ion batteries safe?

The user must have appropriate understanding of lithium ion batteries before purchase. Use caution when working with and using lithium ion batteries as they are very sensitive to charging characteristics and may explode, burn, or cause a fire if misused or mishandled. Always charge in or on a fire-proof surface.

Can a lithium ion battery be used with a smart charger?

Buyer is responsible for any damage or injury caused by misuse or mishandling lithium ion batteries and chargers. No express or implied guarantee of compatibility with any device can be made. Charge only with a smart charger designed for this specific type of lithium ion battery. Do not mix and match old and new, used and unused batteries.
