

3KW photovoltaic power station inverter price

51.2V 150AH, 7.68KWH

Overview

What is psw3k-pro 24V pure sine wave MPPT off grid solar 3kva inverter?

PSW3K-Pro 24v pure sine wave mppt off grid solar 3kva inverter converts the DC of a solar PV or a solar battery into alternating current.

What is a 3000W solar inverter?

Combining a 3000W inverter, MPPT solar charge controller, and battery charger, it provides uninterrupted power support in a portable design. Its user-friendly LCD display allows quick access to key settings such as charging current, input source priority, and acceptable voltage ranges—giving users full control for different applications.

Will I be charged if I buy a 3000W solar inverter?

You won't be charged until the item ships. A revolutionary all-in-one solar inverter: the 3000W solar inverter has a built-in 60A MPPT charge controller and operates from 24V to 110V or 120V AC. With an efficiency of up to 99.9%, the solar charge module uses the most recent optimized MPPT tracking technology.

What is a mps3k solar power station?

Power your world with the MPS3K. Heavy duty. Reliable. Tons of power. An All-in-One, Plug-and-Play Solar Power Station with an Inverter, MPPT Solar Charger, AC Charger, Car Charger, Lithium Battery Bank, and Comprehensive Protective Features. 4.5 kWh Lithium-Ion Battery.

What is a 3,000 watt string inverter kit?

This 3,000-watt string inverter kit serves as a great entry-level, budget-friendly option for ground sites that receive full sunlight (no shade or obstructions). It's a complete photovoltaic power system that works for homes or businesses, and includes everything you need to get your system up and running.

What are the features of a solar inverter?

1. Pure sine wave inverter
2. Configures quickly into compact wall mounted system
3. Built-in MPPT solar charge controller
4. Built-in isolated transformer
5. Harness the continuously declining production cost of solar power
6. Configurable battery charging current based on applications via LCD setting
- 7.
