

3kW Portable Outdoor Power Supply

Overview

What is a 3KW power supply?

A 3kW power supply is a type of industrial power supply that typically operates in heavy-duty environments such as industrial plants and power utilities. It accepts a 480Vac, 3-phase line input and delivers any single output voltage between 24V and 600Vdc. A DC-input version, which accepts any voltage between 500V and 800Vdc, is also available.

How safe is the explorer 3000 Pro portable power station?

Shielded by the cutting-edge Battery Management System (BMS) combined with 12 forms of protection, the Explorer 3000 Pro Portable Power Station provides you with a safe and reliable power supply in emergencies. The cULus1008 listed Transfer Switch eliminates dangers associated with back-feeding, ensuring complete peace of mind.

What can you use a power station for?

Blenders, ice coolers, fridges, projectors, and even heavy-duty electrical tools are supported to power. It is also a perfect rechargeable power station for home portable battery power supply, outdoor adventures, and professional work.
