

# **48v lithium iron phosphate battery 100ah for communication base station**

## Overview

---

What is a 48V 100Ah lithium iron phosphate - LiFePO4 battery?

The Aegis Battery 48V 100Ah Lithium Iron Phosphate - LiFePo4 Battery is a state of the art rechargeable battery pack made with 18650 cells designed for 48V devices. It is perfect for energy storage, solar applications, robots, backup power, and other applications that require a higher-energy density battery.

What is a litime 48V 100Ah battery?

The LiTime 48V 100Ah battery empowers your life through premium longevity. Its top EV lithium iron phosphate cells fuel dependable energy for over a decade while minimizing impact on environment. The cells charge safely up to 4,000+ times at full capacity.

How long can a 48V 100Ah LiFePO4 battery last?

Unleash the Power of the Future - Weize 48V 100Ah LiFePO4 Battery with a 10-Year Warranty! BUILT TO LAST: Our 48V 100Ah LiFePO4 Batteries are designed to exceed 2000 cycles at 100% depth of discharge or 8000 cycles at 50% depth of discharge (suggested), without any decrease in performance.

How long does a 48V 100Ah lithium battery last?

Eco-friendly and free of toxins, the cells maintain high performance for 10+ years while minimizing environmental impact. The 48V 100Ah lithium battery is equips with a 100A BMS to resist load and temperature fluctuations, extending its service life.

How big is a lithium phosphate battery?

See more High performance: using automotive grade A lithium iron phosphate battery core, high energy density, more powerful, smaller size, the battery size is 25.2\*9.65\*8.66 inches long.

How long does a lithium ion battery last?

With 4000-15000 life cycles and a minimum 10-year lifespan, ideal for lead-acid batteries. Ideal for off-grid/solar systems/home storage, the powerful LiTime 48V 100Ah LiFePO4 battery energizes your way. As a versatile and durable companion, it smoothly powers any indoor or outdoor application.
