

# **Afghanistan Public Solar Base Station EMS**

## Overview

---

We electrified 32 clinics with PV systems in a dozen Afghan provinces. We also provided each clinic with a solar hot-water system. These health clinics typically serve over 200 patients per day. The system po.

Is there a power grid in Afghanistan?

Most rural areas in Afghanistan, accounting for 75 % of the population, are not connected to the grid. The power supply is limited to self-made solar PV rooftop systems, which cannot be used for productive use to support economic activities.

Does Afghanistan still have electricity?

In addition to the financial crisis, over 75% of Afghanistan's electricity is still supplied by the neighboring countries-Central Asia and Iran. The utility cannot pay the regional power suppliers due to the current sanction on the country's banking system.

Can Afghanistan provide electricity and water for irrigation?

Considering Afghanistan's current political and economic situation, establishing an independent body with direct engagement of communities is deemed to be the only feasible option to provide electricity and water for irrigation in a sustainable manner.

## Afghanistan Public Solar Base Station EMS
