

Algeria Oran New Energy Storage Project

- | | |
|-----------------------------|-----------------------------|
| 1 PCS Module | 6 OPV2 side circuit breaker |
| 2 Battery room | 7 High Volt Box |
| 3 Grid side circuit breaker | 8 BAT side circuit breaker |
| 4 Load side circuit breaker | 9 LCD display screen |
| 5 OPV1 side circuit breaker | 10 MPPT |

Overview

Will Algeria become a regional energy powerhouse?

The initiative, which focuses on the development of renewable energy, green hydrogen, and energy efficiency, marks a new era in Algeria's strategic vision to become a regional energy powerhouse and a key player in the global energy transition.

How will natural gas boost Algeria's energy exports to Europe?

These developments – spanning natural gas, electricity and renewable energy – will enhance Algeria's energy exports to Europe and expand its domestic capacity. Hassi R'Mel Gas Boosting Project The Hassi R'Mel gas field, one of the largest in the world, is central to a \$2.3 billion project designed to optimize gas flow efficiency to Europe.

What are Algeria's key energy projects in 2025?

Algeria is advancing several key energy projects in 2025, aimed at increasing natural gas production, expanding electricity generation and enhancing renewable energy capacity.

How will Algeria meet Europe's growing hydrogen demand?

Algeria plans to leverage its renewable energy potential to meet Europe's growing hydrogen demand, using both repurposed gas infrastructure and new facilities. This project aligns with both Algeria and Europe's climate goals and is a critical component of Algeria's broader strategy to become a key player in the global green hydrogen market.

How many MW does Algeria's new power plant generate?

Both plants, being developed by Algeria's state-owned Sonelgaz, will each generate 1,340 MW. Both projects are expected to start operations in 2025 and are expected to enhance Algeria's power generation infrastructure while supporting energy security and fuelling the country's economic growth.

Will Algeria build a one-gigawatt solar energy project in 2021?

Towards this end, Algeria launched a tender for a one-gigawatt solar energy project in 2021, comprised of building five power generation sites ranging from 50 to 300 MW each.
