

Algeria s largest photovoltaic energy storage company

Overview

What is Algeria doing with solar energy?

Building on the Solar 2,000 MW and Solar 1,000 MW programs launched by Algeria's state-owned company Sonelgaz, which include a wide range of solar energy initiatives, the government aims to diversify its revenue streams and reduce reliance on natural gas, which is currently primarily used for power generation in the country.

What is Algeria's first photovoltaic project?

Among them, the 233-megawatt photovoltaic project completed in 2016 was Algeria's first new energy project and also the first large-scale grid-connected photovoltaic power station project in Africa. It was honored with the Luban Prize for Overseas Projects in 2018-2019.

What percentage of solar PV installations are in Algeria?

Solar PV capacity accounted for 16.4% of total power plant installations globally in 2023, according to GlobalData, with total recorded solar PV capacity of 1,496GW. This is expected to contribute 33.7% by the end of 2030 with capacity of installations aggregating up to 4,822GW. Of the total global solar PV capacity, 0.03% is in Algeria.

Is Sonelgaz re-tendering solar projects in Algeria?

Sonelgaz has re-tendered three PV projects in Algeria totaling 520 MW, with sites in Kenadsa, Touggourt, and Tamacine, where initial earthworks have begun. The projects were previously awarded to a consortium of Italy's Fimer and Algeria's Cosider. From pv magazine France.

What is Algeria's PV capacity?

Algeria had an installed PV capacity of 423 MW at the end of 2020. Algeria 's minister of the energy transition and renewable energies, Chems Eddine Chitour, has announced this week that a tender for the deployment of 1 GW of

renewable energy capacity will be launched soon.

How many megawatts a photovoltaic system will be built in Algeria?

The two photovoltaic projects have a capacity of 220 megawatts and 150 megawatts, respectively, and will be constructed by POWERCHINA using an EPC model. The two projects are parts of the 15 gigawatts photovoltaic network planned and constructed for Algeria by 2035.
