

Austria rooftop solar photovoltaic panels

Overview

This report provides an in-depth analysis of Austria's PV market and developments over the past year. 2023 was a landmark year for PV installations in Austria, with a total of 2.6 GW of new photovoltaic capacity installed, representing one of the highest per capita installation rates in Europe.

Austria rooftop solar photovoltaic panels

[Schletter supplies Austria's largest PV roof system](#)

As the system extends over several of the factory's roofs, various solar mounting systems and solutions from Schletter were used. The modules were mounted ...
