

Austrian lithium energy storage power supply manufacturer

Overview

European Lithium is a listed (ASX: EUR) (FRA: PF8) (OTC: EULIF) mining exploration and development company focusing on its wholly owned Wolfsberg Lithium Project in Austria. We aim to be the first local lithium supplier into an integrated European battery supply chain. What is European lithium's Wolfsberg Lithium Project?

Having lagged behind, Europe is now investing billions of Euros to transform its auto industry and become a leader in electrified mobility. European Lithium's Wolfsberg Lithium Project is in the heart of Europe's burgeoning cluster of battery manufacturers. Confirmation * You agree to add your personal information to our mailing list.

Why is Europe investing billions in Li-ion batteries?

The clean energy revolution has created a need to secure lithium supply, a key component in the dominate Li-ion battery space and satisfy growing Global and European demand. Having lagged behind, Europe is now investing billions of Euros to transform its auto industry and become a leader in electrified mobility.

What is lithium used for?

Lithium is a highly versatile metal that is widely used in glass and ceramic manufacture, aluminium smelting, greases, air treatment, metallurgical powders, polymers and a variety of speciality salts and pharmaceuticals. Lithium is a key component of Li-ion battery chemistry; the dominant rechargeable battery technology.

Why is lithium a key component of Li-ion battery chemistry?

Lithium is a key component of Li-ion battery chemistry; the dominant rechargeable battery technology. The clean energy revolution has created a need to secure lithium supply, a key component in the dominate Li-ion battery space and satisfy growing Global and European demand.

Austrian lithium energy storage power supply manufacturer

[Top 39 Battery Suppliers in Austria \(2025\). ensun](#)

Their innovative and modular battery systems offer a clean and reliable solution for long-duration energy storage, addressing the growing demand for sustainable energy infrastructure.
