

# **Bahamas Energy Storage Project Planning**

## Overview

---

Who is eco energy Bahamas?

I Harbour: Eco Energy Bahamas Ltd. The project is a grid-tied solar photovoltaic (PV) system and a battery energy storage system located near Coral Harbour and is designed to provide renewable energy, enhancing grid stability and sustain.

What is securing the Bahamas' energy future?

nd focus, discipline, and courage. This document, Securing The Bahamas' Energy Future, is a record of that choice—and a roadmap of the journey we are taking together. It lays out clearly where we started, the obstacles we inherited, and the urgent interventions we made.

What is the energy system for the people of the Bahamas?

ble energy system for the people of The Bahamas. Policy Objective: Reduce The Bahamas' over-reliance on any single fuel type by promoting the diversification of fuel sources, including a transit.

What is the energy policy in the Bahamas?

an energy technologies throughout The Bahamas. Policy Objective: Reduce energy consumption in Agriculture and Fisheries operations, promote renewable energy adoption in farming and fishing communities and improve climate res.

How does the government manage the energy sector in the Bahamas?

e provision of energy as an input of production. The Government further realises that the sustainable development of The Bahamas and effective management of the Energy Sector through clearly defined policies, including legal and institutional frameworks, and partnerships with the private sector, wil.

What will Bahama's energy system look like in the future?

early defined rules of engagement. Looking ahead, Bahamians can expect their energy system to become more than just functional. It will be a driver of prosperity. As the reforms continue to unfold, citizens will experience more equitable access to services, better value for money, and a greater degree of self-determination over their co

## Bahamas Energy Storage Project Planning
