

Belarusian liquid cooling energy storage container manufacturer

Overview

What is a liquid-cooled Bess system?

The liquid-cooled BESS—PKENERGY next-generation commercial energy storage system in collaboration with CATL—features an advanced liquid cooling system for heat dissipation.

What is a Bess container?

BESS containers are more than just energy storage solutions, they are integral components for efficient, reliable, and sustainable energy management. BESS containers are designed for safety and scalability. Their ability to be stacked and combined allows for customization according to project size.

Why should you choose Bluesun energy storage container solutions?

The professional technical service team makes reasonable design according to the roof type of customers to ensure the efficient operation of customer projects. Bluesun provides 500 kwh to 2 mwh energy storage container solutions. Power up your business with reliable energy solutions.
