

Bosnia and Herzegovina New Energy Storage Innovation Joint Community

Overview

What does the renewables readiness assessment mean for Bosnia & Herzegovina?

“The Renewables Readiness Assessment represents an important step in the process of gradual transition from fossil fuels to renewable energy sources on the way to the decarbonisation of Bosnia and Herzegovina’s energy sector by 2050, for which we are grateful to IRENA.

Why should Bosnia and Herzegovina invest in an integrated strategy?

An integrated strategy will provide investors with certainty and predictability, leading to a diversified economy and sustainable jobs creation. “The forthcoming National Climate and Energy Plan will put Bosnia and Herzegovina on the right path to ensure the energy security while improving its long-term resilience to climate change.

What is the share of renewables in Bosnia & Herzegovina?

renewables is between 50% and 60%. Since the renewables share in the heating and cooling sector in Bosnia and Herzegovina in 2020 was 56.62% and the draft NECP does not reflect on the role of waste heat and cold in reaching the target, the increase.

How to address energy poverty in Bosnia & Herzegovina?

ol, such as an Energy Poverty Fund. Bosnia and Herzegovina is invited to consult the Energy Community’s Policy Guidelines on identifying and addressing energy poverty. It is mentioned that the local SECAP (Strategic Energy and Climate Action Plan) process under the Covenant of Mayors will play.

How can Bosnia and Herzegovina improve public participation?

structures of Bosnia and Herzegovina. Ensure simultaneous participation at all government levels, involving the public and the authorities concerned by the

implementation of the plan. Ensure that all scenarios remain open for discussion to facilitate effective public participation. Provide a report explaining the con.

What is a draft plan for Bosnia and Herzegovina?

ment with other strategic documentsThe draft plan describes the current policy context related to Bosnia and Herzegovina's external obligations and links, such as the Energy Community framework in energy, the Sofia Declaration, and the obligations under the Paris Agreement and the UNFCCC regarding climate change,
