

# **Brazil exports solar photovoltaic modules**

## Overview

---

Which country imports the most photovoltaic components to Brazil?

Prior to this decision, the majority of Brazil's photovoltaic components were imported from China. In the period from January to October 2023, China exported photovoltaic components worth \$3.164 billion to Brazil, ranking as the second-largest exporter of such components to the country.

Does Brazil have a solar import tax?

However, on August 1, 2020, the Brazilian government eliminated all import tariffs on foreign-manufactured solar photovoltaic equipment, reducing the import tax rate to 0%. In 2022, China's total exports of photovoltaic products to Brazil amounted to \$4.8 billion, with inverters contributing \$800 million.

Does China Import solar panels to Brazil?

From November to December, China shipped nearly 4GW of solar modules to Brazil, becoming a huge part of Brazil's import activity. This surge highlights how global the solar industry is and how much Brazil counts on Chinese production to reach its green energy goals.

When will Brazil reintroduce a 12% import tariff on photovoltaic components?

Brazil Reinstates 12% Import Tariff on Photovoltaic Components! On December 12, the Brazilian government approved measures to increase import tariffs on photovoltaic components and wind turbines, citing the promotion of local renewable energy equipment production. The measures are set to take effect on January 1, 2024.

Does Brazil impose a tariff on solar panels?

Looking back at the industry's history, Brazil had imposed a hefty 12% tariff on imported solar components and a 14% tariff on inverters. However, on August 1, 2020, the Brazilian government eliminated all import tariffs on foreign-manufactured solar photovoltaic equipment, reducing the import tax

rate to 0%.

How many solar modules did Brazil import in the fourth quarter?

The fourth quarter broke records with over 5GW of imports, as noted by Greener, a local solar analysis and advice company—that's the most Brazil ever saw in three months. From November to December, China shipped nearly 4GW of solar modules to Brazil, becoming a huge part of Brazil's import activity.

## Brazil exports solar photovoltaic modules
