

Cambodia Energy Storage Power Station Project

Overview

The energy storage project has a total capacity of 12MWh, of which 2MWh has a special mission, which is used to verify the stability effect of Huawei's intelligent tandem energy storage technology on the power grid in complex scenarios such as off-grid and weak power grid, and realize the smooth output of intermittent renewable energy.

Cambodia Energy Storage Power Station Project

[Cambodian gov't approves 23 power investment projects for](#)

The planned 23 projects included 12 solar power projects, six wind power projects, one hybrid combined biomass and solar power project, one LNG-gas-fired project, one ...
