

Cambodia Modern Energy Storage Power Station

Overview

How will Cambodia's energy projects improve energy security?

These projects will generate a combined capacity of 3,950 MW, while the energy storage facilities will provide an additional 2,000 MW. With a total investment of \$5.79 billion, the projects aim to ensure a stable and affordable power supply, enhancing Cambodia's energy security by reducing reliance on energy imports.

Why did Cambodia approve 23 new energy projects for 2024-2029?

Home - News - Cambodia Approves \$5.79 Billion in Clean Energy Projects to Boost Power Security The Cambodian Council of Ministers has approved 23 new energy projects for 2024-2029 to address the country's ongoing power shortages. The decision was made during a cabinet meeting chaired by Prime Minister Hun Manet on September 27 at the Peace Palace.

Why is Cambodia investing \$579 billion in energy projects?

With a total investment of \$5.79 billion, the projects aim to ensure a stable and affordable power supply, enhancing Cambodia's energy security by reducing reliance on energy imports. The initiative also supports Cambodia's goal of achieving 70% clean energy by 2030, contributing to global greenhouse gas reduction targets.

How many solar projects are approved in Khmer?

According to the Khmer Times, the approved projects include 12 solar projects, 6 wind projects, 1 biomass and solar combined project, 1 LNG power generation project, 1 hydropower project, and 2 energy storage stations.
