

Cambodia Wacker Group Solar Cells

Overview

What makes Wacker a good partner for the solar industry?

As a leading manufacturer of polysilicon and a pioneer in silicones, WACKER has been an important partner of the solar industry since its beginning. Today the company offers the solar industry a portfolio of future-proof products along the entire solar value chain.

Why is Cambodia making solar panels?

Heng Kunleang, director-general for Energy at the Ministry of Mines and Energy, noted that the government encouraged the manufacture of solar panels for domestic use, as well as for export. “Cambodia, like the rest of the world, is working to mitigate the effects of climate change and maximise the use of renewable energy.

Is Wacker a future-proof solar company?

Today the company offers the solar industry a portfolio of future-proof products along the entire solar value chain. WACKER is a world market leader in polysilicon, with production sites in Burghausen, Nünchritz and Charleston and an annual production capacity of up to 80,000 metric tons.

Why did the US raise tariffs on solar equipment in Cambodia?

Cambodia Chamber of Commerce (CCC) vice-president Lim Heng said the lifting of the US tariffs on solar equipment from four Southeast Asian countries – Cambodia, Malaysia, Thailand and Vietnam – has led to significant investment. “As part of an ongoing trade war, the US actually raised tariffs on many items manufactured in China.

How many solar panels did Cambodia export in 2021?

According to the Cambodian General Department of Customs and Excise (GDCE), in 2021, the Kingdom exported a total of 54,319.83 tonnes of solar panels worth \$273.87 million, an increase of more than 27 per cent on the

previous year in terms of tonnage.

Where is Wacker Polysilicon made?

WACKER is a world market leader in polysilicon, with production sites in Burghausen, Nünchritz and Charleston and an annual production capacity of up to 80,000 metric tons. WACKER has a long history of producing polysilicon, ensuring high and consistent quality.
