

Cambodia assembled outdoor power supply

Overview

What type of power outlet does Cambodia use?

Cambodia uses power outlets and plugs of types A, C & G. Take a look at the pictures below to see what these plugs and power sockets look like: Doesn't look familiar?

Do the outlets look different in your country?

You'll need a power plug adapter. Type A - Mostly used in the US, Canada, Mexico, Central America, China and Japan.

What are the main sources of electricity in Cambodia?

Major sources of local power generation are hydro and coal, and minor sources include diesel, wood, and biomass. In addition to local power generation, Cambodia also buys electricity from neighboring countries, especially during the dry season.

How much money does Cambodia need to build a power plant?

The Cambodian government has stated in its PDP that it will need \$9 billion of investment to develop new power plants and expand the national grid, of which \$2.5 billion has been approved between 2022 and 2025. Opportunities exist for power generation and transmission equipment.

What voltage does a power socket work in Cambodia?

All power sockets in Cambodia provide a standard voltage of 230V with a standard frequency of 50Hz. You can use all your equipment in Cambodia if the outlet voltage in your own country is between 220V-240V. This is the case in most of Europe, Australia, the United Kingdom and most countries in Africa and Asia.

Do I need a travel adapter for a Cambodia Charger?

However, it is possible you'll need an adapter to plug the charger into a Cambodia outlet. Cambodia uses electrical outlets and power plugs of types A, C & G (see images). If your country uses the same electrical outlets and power plugs, you don't need a travel adapter.

Why is electricity so expensive in Cambodia?

Electricity prices in Cambodia are among the most expensive in the region due to a shortage of integrated high-voltage transmission systems and the high cost of imported diesel fuel. Power in provincial cities is more expensive and less reliable than the supply in Phnom Penh.
