

Catching thieves from Iran's telecommunications base station power supply

Overview

Should telecommunication operators invest in a telecom battery backup system?

Investing in a telecom battery backup system is always one of the priorities for telecommunication operators in the 5G era. Sunwoda 48V telecom batteries have a capacity covering 50Ah-150Ah, which can easily meet the power backup needs of macro and micro base stations.

Are Iranian government-affiliated cyber actors targeting US networks?

Iranian government-affiliated actors routinely target poorly secured U.S. networks and internet-connected devices. Recent Iranian state-sponsored activity includes malicious cyber operations against operational technology devices by Islamic Revolutionary Guard Corps (IRGC)-affiliated advanced persistent threat (APT) cyber actors.

Are Iranian Cyber actors causing cyber intrusions on critical infrastructure organizations?

The U.S. government and international partners have attributed cyber intrusions on critical infrastructure organizations to Iranian cyber actors. This advisory provides the actors' TTPs and IOCs derived from FBI engagement with impacted entities. Review Iran-specific advisories [here](#).

Catching thieves from Iran s telecommunications base station power

Our Lifepo4 batteries can beconnected in parallels and in series for larger capacity and voltage.
