

China Photovoltaic Module Manufacturing Project

Overview

The project is located in Xiangcheng County, Henan Province, China. It aims to achieve an annual production capacity of 4.72GW of BC solar products through technical upgrading and renovation of the original seven production lines, with the addition of power systems and other auxiliary equipment.

China Photovoltaic Module Manufacturing Project

[Central China's largest PV module manufacturing base in ...](#)

DAS Solar Jingshan base achieved full stable manufacturing in just 195 days after it started construction and launched its first high-efficiency N-type module. The DAS Solar ...
