

Colombia Mobile Energy Storage Project

Overview

The ministry's Energy Mining Planning Unit (UPME) launched the tender earlier this year, calling for proposals for deploying grid-scale battery energy storage system (BESS) technology to help alleviate system constraints and boost reliability of the grid in Barranquilla, in the Department of Atlantico area of northern Colombia.

Colombia Mobile Energy Storage Project

First battery energy storage system inaugurated on Colombia's grid

The 7MW/3.9MWh storage system, constructed over 20 months at a cost of more than \$5.7 million, will store energy and release it to the National Interconnected System when ...
