

Congo Kinshasa Energy Storage Power Station

Overview

The plastics-to-energy industrial complex is under development, primarily to address the dire situation of plastic waste in the city of Kinshasa. As of August 2021, it was estimated that 9,000 tonnes of solid waste are generated.

The power station is under development by Clean-Seas Inc., a "provider of waste management technology solutions", an enterprise, based in the state of . . .

The construction budget is quoted as US\$30 million (€25 million). Clean-Seas Inc. will design, develop, build, operate and maintain the power plant for 30 years after commissioning. The contracts include a guarantee.

Congo Kinshasa Energy Storage Power Station

[Kinshasa Industrial Energy Storage Company Plant Operation](#)

Kinshasa Thermal Power Station, also Kinshasa Plastics Waste-To-Energy Plant, is a planned plastics-fired thermal power plant in the city of Kinshasa, the capital of the Democratic ...
