

Côte d Ivoire integrated signal tower base station photovoltaic

Overview

How many solar power plants will emerge in Côte d'Ivoire?

Powers of Africa Côte d'Ivoire. 12 photovoltaic solar power plants will emerge between 2025 and 2026. The Ivorian Minister of Mines, Petroleum, and Energy, Mamadou Sangafowa Coulibaly, announced the construction of 12 new photovoltaic solar power plants across the country between 2025 and 2026.

Where is the first solar power plant in Côte d'Ivoire?

In Boundiali in the north of Côte d'Ivoire, the country's first solar power plant has now been inaugurated by Ivorian Prime Minister Beugré Mambé and German Parliamentary State Secretary Bärbel Kofler. The power plant has already been providing up to 37 megawatts of power since June 2023.

Where will Ivory Coast's first solar power plant be located?

Ivory Coast is set to commission its first solar power plant in the country's northern town of Boundiali in the Savanes District, approximately 660km from the country's capital of Abidjan.

Why should Côte d'Ivoire invest in a solar power plant?

The solar power plant is regarded as a model project for the expansion of solar energy in Côte d'Ivoire. It is an important contribution to the fight against climate change and a decisive step towards increasing the share of renewable energies in the country's electricity supply to 45% by 2030.

Where is Ivorian power plant located?

Located in Boundiali in the north of the country, the plant has already been providing up to 37MW of power since June 2023. It was officially launched this week by Ivorian Prime Minister Beugré Mambé and German Parliamentary State Secretary Bärbel Kofler.

Why did KfW build a solar power plant in Côte d'Ivoire?

"We also endeavoured to create employment for the local population," emphasises KfW Project Manager Clara Winkler-Tomety. During the construction phase, 75% of the workers came from the region. The new solar power plant in Côte d'Ivoire is helping to achieve the goals of German development cooperation in the expansion of renewable energies.
