How many watts can a DC battery power a car?

Pure DC power delivers up to 300W total output, with a maximum of 140W available from a single USB-C port (other ports have different output limits, including the 12V car outlet*—see specs for details). That's enough to power 90% of essential outdoor gear like lights, cameras, tablets, projectors, speakers, electric coolers, and more.

Does the Anker Solix C200 DC have a charger?

The **C200 DC** does not include a charger. You can use any USB-C PD charger with 18W (9V/2A) or higher output. For full-speed charging, a 140W

charging port is required. Q2: How can I obtain the manual for the Anker Solix C200 DC?

I didn't find a manual in the package. For environmental reasons, we currently provide an electronic manual.

Can I purchase a car charging cable or solar charging cable?

The car charging cable or solar charging cable can be purchased separately and you can contact Anker customer support for more information.
