

# **Djibouti Communications 5G base station construction**

## Overview

---

When is Djibouti Telecom launching a cable landing station?

While the centre was expected to be completed in April 2022, it had yet to be inaugurated as of January 2023. Djibouti Telecom built and operates two cable landing stations – the YAC A cable landing station and the Haramous cable landing station.

When will Djibouti's new data centre be built?

In October 2021 data centre services company Wingu.Africa partnered with Djibouti ISP TO7 Network to build a new carrier-neutral data centre and cable landing station in the capital. While the centre was expected to be completed in April 2022, it had yet to be inaugurated as of January 2023.

Will Djibouti Telecom connect 2Africa to the capital?

In May 2022 Djibouti Telecom announced that 2Africa had been connected to the capital, marking an important step in a project that is expected to contribute significantly to the country's digital transformation.

Is Djibouti a data centre?

Since 2013 the country has housed the Djibouti Data Centre, the first data centre in the Horn of Africa and the first Tier-3 data centre in East Africa. In October 2021 data centre services company Wingu.Africa partnered with Djibouti ISP TO7 Network to build a new carrier-neutral data centre and cable landing station in the capital.

Is Djibouti Telecom a government-owned company?

The company also offers xDSL access – a network of high-bandwidth transmission – to neighbouring Eritrea, Ethiopia and Somalia. Although Djibouti Telecom is undergoing strategic changes aimed at partial privatisation, it remained a government-owned enterprise as of late 2022.

What services does Djibouti Telecom offer?

Djibouti Telecom is the sole provider of mobile and fixed services in the country, including mobile 2G, 3G and 4G technologies, fixed-line voice, internet and data services. The company also offers xDSL access – a network of high-bandwidth transmission – to neighbouring Eritrea, Ethiopia and Somalia.
