

Does the outdoor power supply need to be kept powered

Overview

For those in need of power outdoors for a short time, such as to trim your bushes, power a bounce house for your kid's birthday, or provide lighting for a party, an extension cord will get the job done for.

Is an external power supply required?

An external power supply is required for devices like printers, displays, pin pads, external DVD-ROMs, and hard drives. Unfortunately, the bus supplied power is limited to 2.5 Watts (0.5A @ +5V) per port, sufficient to provide enough power to input devices, web cameras, and other low power devices.

What is an outdoor Uninterruptible Power Supply?

An outdoor Uninterruptible Power Supply is a power solution designed for critical applications where it's essential that equipment stays running in harsh outdoor environments and significant temperature variations, where an ordinary UPS would fail. Trust TSi Power for these applications.

Is a permanent power outlet necessary?

For lighting, lawn tools used on a regular basis, or power needs for outbuildings, you need a permanent power solution for safety. This can involve an outdoor outlet addition to your home's main structure, or wiring run remotely to an outbuilding.

Do I need a GFCI outlet if I run power outside?

When running power outside, a GFCI-equipped outlet is required by code in all areas exposed to moisture, such as the outdoors, and ensures safety. When adding an outdoor outlet, be sure to choose an outdoor-rated, weatherproof model with built-in, high-sensitivity GFCI.

Is a permanent power solution necessary?

For lighting, lawn tools used regularly, or power needs in outbuildings, a permanent power solution is necessary for safety. This can involve adding an outdoor outlet to your home's main structure or running wiring remotely to an

outbuilding. For power lines not connected to your house, cable must be wired to a separate GFCI indoors.

How do I choose an outdoor outlet?

When choosing an outdoor outlet, be sure to select an outdoor-rated and weatherproof model with built-in, high-sensitivity GFCI\|. All exterior outlets should have spring-loaded covers to protect them from weather, pests, and most importantly, moisture.
