

EU solar photovoltaic panel prices

Overview

The solar panels typically represent 40-45% of the total equipment cost, ranging from €3,200 to €4,000 for quality European-manufactured modules. Current market prices average around €400-500 per panel, with 20-24 panels needed for an 8 kW system. How much does a photovoltaic panel cost?

Mainstream Photovoltaic Panels: Average price of €0.10/Wp, down 9.1% month-on-month. Low-Cost Photovoltaic Modules: Average price of €0.060/Wp, a decrease of 7.7% compared to the previous month. These figures underscore the significant pressures in the photovoltaic market, as price reductions strain margins to unprecedented levels.

How much does a solar module cost in Europe?

Search4Solar, a European platform for buying and selling solar panels, inverters, and batteries, received a record-low PV module price this week at €0.055 (\$0.058) /W. “ This is the first time the €0.06/W threshold was surpassed,” Leen Van Bellen, business development manager Europe at Search4Solar told pv magazine.

Are solar module prices at the lowest point in Europe?

Surpassing the €0.06/W threshold may indicate that solar module prices in the European market have hit their lowest point. “ This is the bottom in the EU,” Van Bellen said. “The next step could be shipping back the products to China or selling them in Africa.”.

How much does a photovoltaic module cost?

Mainstream Modules: Average price of €0.11/Wp, stable compared to September but 21.4% lower than January 2024. Low-Cost Modules: Average price of €0.065/Wp, a 7.1% decrease from September and 27.8% from January 2024. These trends are exerting mounting pressure on the photovoltaic sector.

How much did solar panels cost in October 2024?

Here's a detailed breakdown: High-Efficiency Solar Panels: The average price was €0.125/Wp, marking a 3.8% decrease compared to October 2024. Mainstream Solar Panels: Prices averaged €0.095/Wp, experiencing a 5% decline from October 2024. Low-Cost Solar Panels: Prices remained stable at €0.060/Wp, unchanged from the previous month.

Are solar module prices a new low?

Solar module prices reached a new low this week, says Leen van Bellen, business development manager Europe for Search4Solar, a European purchasing and selling platform for solar products. He tells pv magazine that prices will remain low in the short term.
