

East Timor Photovoltaic Power Storage Project

Overview

Will Timor-Leste's first solar power project integrate with a battery energy storage system?

In a landmark moment for Timor-Leste's energy future, a Power Purchase Agreement (PPA) has been officially signed for the country's first-ever solar power project integrated with a Battery Energy Storage System (BESS).

What is the Timor-Leste solar power project?

The Project involves the construction and 25-year operation of a new power plant in Manatuto, Timor-Leste, comprising a 72 MW solar power plant collocated with a 36 MW/36 MWh battery energy storage system. This will be the country's first full-scale renewable energy IPP project.

Does Timor-Leste provide backstop guarantee for EDTL obligations?

For the Solar IPP project, Government of Timor-Leste represented by the Ministry of Finance has provided backstop guarantee for EDTL obligations under the Implementation Agreement. Special Investment Agreement, if concluded could allow the winning bidder a leasing of the Site at a concessional rate and other benefits.

East Timor Photovoltaic Power Storage Project

Leste (EDTL, E.P.) on a power

We have advised Eletricidade de Timor-

We have advised Eletricidade de Timor-Leste (EDTL, E.P.) on a power purchase agreement for Timor-Leste's first utility-scale solar photovoltaic power plant and battery energy storage system.

Product Information

Photovoltaic Solar Panels in East Timor Opportunities and ...

Summary: East Timor's renewable energy sector is witnessing rapid growth, with photovoltaic solar panels emerging as a key solution for rural electrification and sustainable development. ...

Signing of Power Purchase Agreement (PPA) for Solar and ...

The Project involves the construction and 25-year operation of a new power plant in Manatuto, Timor-Leste, comprising a 72 MW solar power plant co-located with a 36 MW/36 ...
