

# Embedded battery cabinet for communication network cabinet

## Overview

---

What is a pad mount cabinet?

Pad mount cabinets offer a sturdy, ground-level solution with easy access for maintenance and installation, making them a reliable choice for your equipment and/or batteries. Designed for reliability and performance, ICEcube's cabinets and racks integrate advanced climate control technology with rugged construction for harsh environments.

What is a cube ID series cabinet?

CUBE ID Series (Indoor) cabinets address the needs of indoor wireless applications. ID Series enclosures feature power, equipment and optional battery compartments, and are direct air cooled for operation in indoor equipment areas.

What is a CIBR battery rack?

Charles Indoor Battery Racks (CIBR) are modular, seismic Zone 4 rated (GR-487 certified) battery rack systems designed to fit the footprint of VRLA batteries from a variety of battery manufacturers or Saft Tel.X Ni-Cd batteries. In addition to several standard configurations, there are also single tray options that can be built on site.

Do NEMA cabinets have climate control?

Our cabinets can be fitted with or without climate control and are engineered for efficiency, offering precise temperature regulation to prevent overheating. Whether deployed indoors or in rugged outdoor environments, these NEMA cabinets maintain optimal operating conditions for critical components. Wall Cabinets W/EZ Access™ Battery Chamber
