

Energy storage projects in Côte d'Ivoire

Overview

Will a lithium-ion battery energy storage system be installed in Côte d'Ivoire?

A lithium-ion battery energy storage system (BESS) made by Saft will be installed at a 37.5MWp solar PV power plant in Côte d'Ivoire (Ivory Coast). It is the African country's first-ever large-scale solar project and the batteries will be used to smooth and integrate the variable output of the PV modules for export to the local electricity grid.

Where is a new solar plant in Côte d'Ivoire?

The recently inaugurated solar plant in Boundiali, Ivory Coast. Image Source: RMT, Eiffage Energie Système A new solar plant that can supply electricity to up to 35,000 homes has been inaugurated in Côte d'Ivoire. Located in Boundiali in the north of the country, the plant has already been providing up to 37MW of power since June 2023.

Why is Côte d'Ivoire launching a solar power plant?

"The solar power plant is regarded as a model project for the expansion of solar energy in Côte d'Ivoire. It is an important contribution to the fight against climate change and a decisive step towards increasing the share of renewable energies in the country's electricity supply to 45% by 2030," said KfW.
