

# **Energy storage projects under construction in the UK**

## Overview

---

What are the largest energy storage projects in the UK?

Listed below are the five largest energy storage projects by capacity in the UK, according to GlobalData's power database. GlobalData uses proprietary data and analytics to provide a complete picture of the global energy storage segment. Buy the latest energy storage projects profiles [here](#). 1. Sunnica Solar-plus-Battery Energy Storage System.

What is the biggest battery storage project in the UK?

The 1,400MW (3,100MWh) project will be the largest battery storage project in the UK, and one of the largest in Europe. The project was approved by Doncaster Council on 28 January 2025 and will help strengthen the local economy by creating jobs during the construction and operation of the facility.

How has energy storage changed in the UK?

RenewableUK's 'EnergyPulse' energy storage report showed that the total pipeline of battery projects has increased from 50.3GW a year ago to 84.8GW, an increase of 68.6 per cent, or 34.5GW. Operational battery storage capacity has grown to 3.5GW, while the capacity of projects under construction has reached 3.8GW.

Could energy storage save £10 billion a year?

The Department for Business, Energy & Industrial Strategy has said that technologies "such as electricity storage could save up to £10 billion per year by 2050 by reducing the amount of generation and network needed to decarbonise and create 24,000 jobs". Which are the 5 biggest UK energy storage projects?

.

How many battery storage projects are there?

The pipeline of battery storage projects has continued to grow steadily again, from 84.4GW in December 2023 to 95.5GW in May 2024. This edition of the EnergyPulse report on Energy Storage shows there is 8.7GW of batteries in operation and under construction and more than 30GW projects have now been consented.

Will the UK add more energy storage capacity in 2022-2031?

Wood Mackenzie has predicted that the UK will add 25.68GWh of new grid-scale energy storage capacity during the period 2022-2031, more than twice the amount that will be added by Europe's second fastest-growing market, Italy. More due diligence required in future

## Energy storage projects under construction in the UK

### DETAILS AND PACKAGING

### EDF signs deal with Fidora Energy for UK battery storage project

1 day ago· Thorpe Marsh is set to become the UK's largest battery storage site and among the largest in Europe, with a total planned capacity of 1.4GW (2.9GWh). Built by Fidora Energy on ...
