

European smart battery cabinet manufacturer

Overview

What is the future of battery manufacturing in Europe?

As global demand for sustainable energy solutions grows, Europe's battery manufacturing industry is undergoing unprecedented development. From the automotive industry to home energy storage systems, the demand for high-performance batteries continues to rise, driving technological advancements and fostering a host of innovative companies.

How does a battery company promote Europe's battery production independence?

It aims to promote Europe's battery production independence by using renewable energy for sustainable battery manufacturing. The company focuses on lithium-ion battery production and is developing high energy density and long-lasting battery technology.

Where are SAFT Batteries made?

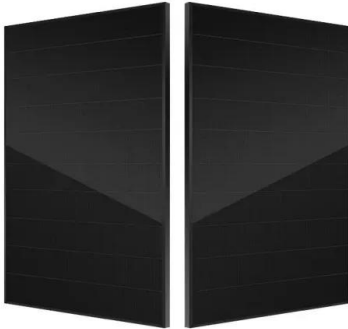

Founded in 1918 and a subsidiary of TotalEnergies since 2016, Saft Batteries is headquartered in Paris, France, with multiple production facilities and R&D centers worldwide. Saft produces millions of battery cells annually, covering various markets.

Where are Freyr batteries made?

In February 2023, they signed a partnership with Gotion to develop joint electric vehicle batteries in Central and Eastern Europe, launching their first battery production line in Slovakia. Freyr is a Norwegian company focused on producing sustainable batteries primarily for electric vehicles and renewable energy sectors.
