

# **Explosion-proof outdoor power supply**

## Overview

---

What is an explosion-proof uninterruptible power supply system (UPS)?

Orga helps make daily operations easier, with Orga's Explosion-proof (EX) Uninterruptible Power Supply system (UPS). What does an Explosion-proof Uninterruptible Power Supply system do?

The batteries of our EX-certified UPS (Uninterruptible Power Supply) continue to supply power when the normal power supply is cut off.

What is explosion proof equipment?

In other words, "explosion proof" means that the equipment is simply built in a heavy protective enclosure, that must be of sufficient mass and strength to safely contain any explosion. Note that the terms "explosion proof" and "flameproof" are not synonyms, they have some subtle differences.

Why do I need an ex-certified UPS (uninterruptible power supply)?

The batteries of our EX-certified UPS (Uninterruptible Power Supply) continue to supply power when the normal power supply is cut off. This ensures that critical systems keep running in order to keep the asset safe and compliant with relevant regulations in every situation, even in hazardous areas.

What is the iups101 uninterruptible power supply system?

The iUPS101 Uninterruptible Power Supply system is certified for use in ATEX and IECEx Zone 1 and 2 hazardous areas. It provides back up power to protect critical equipment, such as instrumentation and control systems, navigation and landing lighting, or blow out prevention systems, in the event of a blackout or brownout. Want to find out more?

.

Why are uninterruptible power supplies important?

Uninterruptible power supplies (UPS) are becoming increasingly significant as the importance of decentralized power sources grows and the dependability of power supply networks declines. Especially for applications that are safety essential or have a high need for plant availability.

Why do you need a reliable power supply?

Running and maintaining a safe and reliable operation on remote and unmanned locations is a complex task, especially in hazardous areas. You need a reliable power supply to keep critical systems up and running in all situations. Orga helps make daily operations easier, with Orga's Explosion-proof (EX) Uninterruptible Power Supply system (UPS).

## Explosion-proof outdoor power supply
