

# **Five acres in the Democratic Republic of the Congo can generate 1 000 kilowatts of solar energy**

## Overview

---

Even though the DRC possesses prosperous and varied resources for energy generation, the energy sector still falls far behind. This is due to the many problems, which the energy sector faces. In orde.

## Five acres in the Democratic Republic of the Congo can generate 1 000 MW

---

### Do decentralized solar mini grids improve energy access for small

The Democratic Republic of the Congo (DRC) has one of the lowest electrification rates globally, placing undue constraints on the country's small enterprises. Efforts are ...
