

Georgia 160MWh Energy Storage Power Station

Overview

How many MW of new battery energy storage will be available?

An additional 1,000 MW of new battery energy storage is expected to be procured in the coming years through competitive bidding processes and a 13 MW demonstration project is in development at Fort Stewart Army Installation near Savannah, Georgia.

How does Georgia Power work with the Georgia PSC?

Georgia Power continues to work with the Georgia PSC to procure and develop BESS projects across Georgia.

Does Georgia Power support Customer-Sited solar?

Georgia Power is also committed to supporting customer-sited generation resources to meet the state's growing energy needs. The 2025 IRP includes two customer expansions of BESS programs including enhancements to the Customer Connected Solar Program and launching a new Customer-Sited Solar Plus Storage Pilot.

Georgia 160MWh Energy Storage Power Station

Dry Creek Energy Storage Project

To help maintain grid reliability and resiliency, we're proposing to construct and operate a Battery Energy Storage System (BESS). The project would connect to the Rancho Seco Solar II

Product Information

Work begins on Georgia Power battery storage systems

ATLANTA - Construction is underway on battery energy storage systems (BESS) at four locations across the state, Georgia Power officials announced Wednesday.

Product Information

Where Georgia Power plans to install massive batteries next

Georgia Power, the state's largest utility, has revealed details about where it will install its next set of massive batteries, part of its plan to meet a wave of electricity demand the ...
