

Guyana large energy storage vehicle manufacturer

Overview

What is the gas-to-energy project in Guyana?

Our operations in Guyana are helping to supply the world's energy needs by producing more than 600,000 barrels of oil a day. The Gas-to-Energy project is expected to greatly improve the quality of life for the people of Guyana.

How many barrels of oil are produced a day in Guyana?

More than 100 miles offshore Guyana, three of the world's largest, best-in-class floating production storage and offloading (FPSO) vessels – the Liza Unity, the Liza Destiny and Prosperity – are producing more than 600,000 barrels of oil every day – up from 370,000 just one year ago.

What's happening in Guyana?

Last month, at the Guyana Energy Conference and Supply Chain Expo, we showcased the success we've had in Guyana to date and discussed the projects we have planned for the future. One of those projects is a 140-mile pipeline that will connect our offshore operations to the mainland.

Guyana large energy storage vehicle manufacturer

OVER 60 COMPANIES ALREADY ONBOARD FOR GUYANA ENERGY

Among the top 10 global battery manufacturers (power + energy storage) in 2024, six are Chinese companies: CATL, BYD, EVE Energy, CALB, Gotion High-Tech, and Sunwoda. Three South ...
