

Home energy storage 24V 80kWh

Overview

Can a DeLong 80kWh battery be used as a solar energy system?

DeLong's 80kWh battery pack can be connected to an inverter or PCS to form a solar energy system. This system can output a voltage of 512V. You can use it in grid-tied, off-grid, or hybrid modes. The 80kWh battery meets energy needs for residential, commercial, emergency, and industrial applications.

What is a 80kWh battery?

The 80kWh battery meets energy needs for residential, commercial, emergency, and industrial applications. Price: Click The Button Below To Get A Discount Price. The 80kWh battery pack consists of five 16kWh LiFePO4 battery modules.

How many volts can a 80 kWh battery output?

This system can output a voltage of 512V. You can use it in grid-tied, off-grid, or hybrid modes. The 80kWh battery meets energy needs for residential, commercial, emergency, and industrial applications. Price: Click The Button Below To Get A Discount Price.

What is DeLong 500V 80kWh battery pack?

DeLong 500V 80kwh battery pack has a long lifespan and excellent safety performance, suitable for residential, commercial, emergency power, and industrial.

Does the 80kWh battery bank work with a hybrid inverter?

The 80kWh battery bank is equipped with RS485 and CAN communication ports. It has great compatibility with various brands of hybrid and off-grid inverters. Additionally, DeLong can adjust the system according to your inverter's communication protocol. You don't need to worry about compatibility.

How many LiFePO4 cells are in the 80kWh battery pack?

The 80kWh battery pack consists of five 16kWh LiFePO4 battery modules. Each module is rated at 102.4V and 157Ah. The enclosure has an IP20 protection rating, meeting the requirements for normal environmental use. Its features are as follows: • Uses Grade A LiFePO4 cells: Each module is made up of 32 Grade A 3.2V cells connected in series.
