

# How many 5G base stations are there in Taipei

## Overview

---

How many 5G base stations are there in Taiwan?

The carrier currently operates a total of 8,000 5G base stations, with plans to expand this figure to 10,000 by the end of the year, according to the sources. The operator was the first telco in Taiwan to receive a license for 5G services from the National Communications Commission (NCC).

Who has 5G coverage in Taiwan?

Chunghwa Telecom's 5G network extended furthest across Taiwan, at 97.6% of locations with 5G coverage during Q2-Q3 2023. Far EasTone followed with 88.9%, and Taiwan Mobile with 85.6%. GT and T Star have an almost equal 5G footprint, reporting 49.7% and 49.0% respectively.

Which 5G network is best in Taiwan?

Far EasTone and Taiwan Mobile came in second and third place, respectively. GT and T Star ranked fourth and fifth, with median download speeds of 190.48 Mbps and 113.85 Mbps. Chunghwa Telecom's 5G network extends to 97.6% of locations in Taiwan with 5G coverage.

Does Taiwan need 5G?

Both Taiwan Mobile and Far EasTone will be required to increase 4G coverage across the island to 99% of the population, while 5G coverage must be at least 98% by 2027.

How many 5G cell towers does Taiwan Mobile have?

In a release, Taiwan Mobile also said it had already built over 6,000 5G 3.5GHz cell towers by the end of last year, offering 80% 5G coverage in the six special municipalities, with 5G internet traffic coverage around 70% across the country. The Asian carrier currently has over 600,000 subscribers in the 5G segment.

How many 5G subscribers will Taiwan Star Telecom have?

Rival operator Taiwan Star Telecom recently said it expected to reach 550,000 subscribers in the 5G segment at the end of the year. This figure will represent nearly 20% of the carrier's overall mobile base, according to the report. The telco, which had launched commercial 5G services in August 2020, currently has 120,000 5G customers.
