

How much does a green base station cost in Brazil Communications

Overview

How many 5G base stations are there in Brazil?

A total of 5,275 standalone 5G base stations have been activated in Brazil – double the minimum commitment. This represents 6% of the overall 93,159 base stations in the country. By 2025, 6,370 5G base stations must be installed in the state capitals. In total, the state capitals are home to nearly a quarter of the Brazilian population.

Why is Brazil a great telecom market?

Brazil is an exciting telecom market that offers significant demand, economies of scale, and comparatively smooth regulatory processes. We will see a lot more change in the coming years, as the biggest regional and global telecom operators and tower companies continue competing fiercely for a larger market share.

How has SBA communication entered the digital infrastructure market in Brazil?

In addition to growing its wireless infrastructure portfolio in Brazil, over the last few years SBA Communication has entered the digital infrastructure market in the country through and acquisition of fibre assets, followed by purchasing a data centre in 2022.

Did SBA Communications buy a new site in Brazil?

That likely means that the anonymous seller in Brazil that SBA Communications announced to be buying an additional 200+ sites earlier in the year was Grupo TorreSur, and anonymity was aimed at preventing early rumours of the latter company's exit from the market.

How is the mobile phone market developing in Brazil?

The market's development has two sides: On the one hand, the number of fixed telephone lines in Brazil has been decreasing, amounting to around 25.5

million in 2023; on the other hand, the mobile telephony industry keeps increasing, and the number of mobile phone lines in Brazil totaled over 256 million in the same year.

How many mobile operators are in Brazil?

Similarly, on the telecom carrier front, Brazil's four mobile operators, Vivo (Telefónica), Claro (América Móvil), TIM, and Oi are being reduced to three, with the exit of Oi following financial difficulties.
