

How much does the Estonian special energy storage battery cost

Overview

The project, which came with a price tag of €19.6 million, was commissioned on February 1 only a few days before the desynchronization of the Baltic electricity system from the Russian grid. Where is Estonia's largest battery storage facility located?

The flagship battery storage project commenced operations on February 1, only days before cutting ties with the Russian power grid. Estonian state-owned energy company Eesti Energia has inaugurated the nation's largest battery energy storage facility at the Auvere industrial complex in Ida-Viru County.

How much does electricity cost in Estonia?

Estonia, June 2023: The price of electricity is 0.320 U.S. Dollar per kWh for households and 0.183 U.S. Dollar for businesses which includes all components of the electricity bill such as the cost of power, distribution and taxes.

How does Eesti Energia's battery work?

According to Eesti Energia board member Kristjan Kuhi, the battery is able to respond very effectively to fluctuations in the power system. "This modern capacity significantly reduces the costs of balancing the Baltic electricity system and thus the end price for the consumer," Kuhi said.

Does Eesti Energi have a Bess battery?

Estonia utility Eesti Energi has completed the procurement for its 26.5MW/51MWh BESS with LG Energy Solution to provide the batteries.

Is Eesti Energia launching pumped hydro energy storage projects?

Eesti Energia and a consortium of private companies are also launching separate, large-scale pumped hydro energy storage (PHES) projects, though these would come online in the late 2020s. Energy-Storage.news' publisher

Solar Media will host the 9th annual Energy Storage Summit EU in London, 20-21 February 2024.

Where will a battery energy storage system be built?

The battery energy storage system (BESS) will be built at the Auvere industrial power plant complex in Ida-Viru county and will help balance the country's grid, state-owned utility Eesti Energia said today (30 January).

How much does the Estonian special energy storage battery cost

Estonia grid-scale BESS to come online in 2025 with LG batteries

It will come online at the start of 2025, when Estonia and the other Baltic countries Lithuania and Latvia will disconnect from Russia's grid. The complex is located close to the ...
