

# **How to cut off the base station battery**

## Overview

---

How do you replace a battery in a base station?

To replace batteries in a SimpliSafe base station, rotate the base counterclockwise (CCW) to remove it, then remove the batteries and replace them while ensuring the (-) and (+) orientation. When disposing of NiMH batteries, they should be recycled.

How to remove a battery from a SimpliSafe base station?

To remove the battery from your SimpliSafe base station, first locate the battery compartment on the bottom of the base station.

How do you remove a NiMH battery from a base station?

Remove the power plug from the bottom of the base station to expose one screw. Remove the screw, rotate the base counterclockwise, and it will pull off. Remove the NiMH batteries and replace them while ensuring the correct (-) and (+) orientation. When disposing of NiMH batteries, they should be recycled.

How many batteries does the base station take?

The Base Station takes four (4) 1.2V, 1300mAh nickel-metal hydride (NiMH) rechargeable batteries. Regular alkaline batteries should never be inserted into the Base Station, as they may damage the device. Once you have acquired the necessary NiMH rechargeable batteries, you can follow the steps below to replace them:.

How do you remove a battery from a security system?

To remove the battery from a SimpliSafe Base Station, first locate the battery compartment on the bottom of the device. This compartment houses the rechargeable battery that powers the device.

What type of batteries are used in the base station?

Inside the bottom of the base station are QTY (4) AA nickel-metal hydride rechargeable batteries (abbreviated NiMH or Ni-MH). Note, being RECHARGEABLE, there is a good chance that if you just keep the power on for several hours, they will be recharged.
