

How to match batteries to a battery cabinet

Voltage range: 691.2-947.2V

>6000 cycles (100%DOD)

Rated battery capacity:
216KWH (customizable)

EMS communication:
4G/CAN/RS485

Overview

To ensure optimal battery performance and longevity, it is essential to properly match batteries with similar characteristics, including capacity, voltage, and chemistry, when connecting them in series, parallel, or series-parallel configurations.

How to match batteries to a battery cabinet

Cabinet/Rack-Kung Long Batteries

KUNG LONG storage cabinets are a superior solution for the safe storage of top terminal batteries and devices containing them. The Battery cabinet is designed to house standard VRLA ...
