

How to replace the battery in Huawei s energy storage cabinet

Overview

What to do if a Huawei battery module is damaged?

Appearance If a battery module experiences damage, leakage, or deformity, disconnect, take pictures, and then replace the battery module. Checking If the pointer is in the red zone, contact Huawei technical support. pressure gauge Quarterly Cleanlines Clean the battery module exterior using cotton cloth.

What is a battery cabinet?

LCD that displays battery running information in real time and allows users to set battery parameters. Battery cabinets can connect to the UPS and network management system (NMS) for intelligent management. Issue 03 (2020-08-07) Copyright © Huawei Technologies Co., Ltd. Eight battery modules are connected in series in each string.

How many smartli lithium battery cabinets can be connected?

Scenario where SmartLi 3.0 lithium battery cabinets are deployed outside the smart module: One integrated UPS can connect to a maximum of 10 SmartLi 3.0 lithium battery cabinets. When multiple cabinets are connected in parallel, only the master cabinet has an LCD.

How do I remove a faulty battery pack?

Press to open the covers on both sides of the battery pack. Remove copper bars and cables from the faulty battery pack and its adjacent battery packs, and close the covers. Remove screws from the battery pack. Remove the air channel plates from the top and bottom of the battery pack.

How many lithium battery cabinets can be connected in parallel?

A maximum of 15 SmartLi 2.0 lithium battery cabinets can be connected in parallel. When multiple cabinets are connected in parallel, only the master cabinet has an LCD. Easy capacity expansion: Batteries can be added along

with load increase by stages. New and old battery cabinets can be connected in parallel.

How do you remove a battery pack from a forklift?

Install the operating handle on the battery pack, pull the old battery pack onto the installation kit, and secure the battery pack. Use a forklift to put down the installation kit, remove the binding straps from the old battery pack, remove the positioning pins, install the lifting handles, and remove the old battery pack.
