

# **Huawei Energy Storage Power Station Contract**

## Overview

---

Is Huawei partnering with sepcoiii for a 1300 MWh off-grid battery energy storage system?

Huawei has recently signed the contract with SEPCOIII at Global Digital Power Summit 2021 in Dubai for a 1300 MWh off-grid battery energy storage system (BESS) project in Saudi Arabia, currently the world's largest of its kind.

What is Huawei's Red Sea energy storage project?

This project also represents the largest energy storage project since Huawei officially launched the Smart String Energy Storage Solution for utility-scale PV power plants in June 2021. Sitting on the Saudi Arabian Red Sea coast, the Red Sea project is one of the key projects as part of the Saudi Vision 2030.

What is Huawei doing with energy storage?

Huawei is integrating digital information technology with PV and energy storage technologies to build a more efficient, stable, and safe smart string energy storage system using intelligent and modular designs. Huawei currently has 8 GWh of energy storage system applications in operation.

Is Huawei a reliable partner?

Huawei is a reliable partner for customers all over the world, providing long-term and efficient support in terms of delivery and service. According to the contract, Huawei's FusionSolar Smart PV + Storage solution will be delivered from June 2022, and the whole project is expected to be completed on March 2023.
