

Huawei energy storage power supply independent configuration

Overview

What is Huawei smart PV management system (smartpvms)?

Huawei Smart PV Management System (SmartPVMS) schedules the generator to supply power to loads based on the mains and battery status in the off-grid scenario. The power supply configuration is set by the installer in quick settings during site deployment.

What is energy storage system products list?

Energy Storage System Products List covers all Smart String ESS products, including LUNA2000, STS-6000K, JUPITER-9000K, Management System and other accessories product series.

How do I Turn on the ESS auxiliary power supply?

Turn on the power switch of the ESS auxiliary power supply. Turn on the DC circuit breakers 1Q1-6Q1 of battery racks in the battery cabins. (Optional) Turn on the UPS cable inlet switch 5FCB. Turn on the SPD switch 2FCB1 and check that the SPD display window is green. Turn on the general AC cable inlet switch 1QA of the ESS.
